

SPEADS RS07A

DSR/CSR

Speads RS07 DSR/CSR

The Speads RS07 is a new generation sports racer for SCCA CSR and DSR competition. Designed and built in South Africa for SCCA club racing, the RS07 has an immensely strong tubular chassis, high-tech aerodynamics, space-age materials, and the latest in safety features. The sports racer bodywork makes it outstanding for track days and driver's schools, as well as competitive club racing. The RS07 can accept a variety of motorcycle engines, so plug in your choice of engine and go racing!

Contact us today to learn more about this exciting sports racer!
